Jisoo Lee

jisooworks@gmail.com   https://jisooworks.com/

COMPETENCIES

Generative and evaluative UX design research
- Exploration for problem definition, and test on usefulness / usability / satisfaction
- In-depth interviews, diary study, technology probes, survey, usability testing, randomized experiments.

Qualitative and quantitative data analysis
- Content analysis of user statements
- Quantitative / statistical data analysis using SQL and Python language.

Design insights and deliverables
- User-centered, holistic design thinking.
- Personas, storyboarding, user journeys, low-fi & hi-fi prototyping using Adobe Creative Suite, Sketch

EXPERIENCE

Freelance UX researcher, Bay area, CA | Jan 2019 – Present
- For Inition (http://inition.kr), I planned and conducted various projects:
  - Diary and interview study on push notifications on integrated multiple devices, and proposed context-aware notification strategies.
  - Competitor research and product ecosystem analysis, for one of top electronic companies.
  - Interview study on people's everyday life change during Covid-19 lockdown to propose design opportunities.
  - Competitor research and Interview study to develop UX strategies of teacher-parent communication tools.
- For YesPlz (https://yesplz.us), AI-powered fashion search company, conducted interview data analysis to extract classification features of fashion items.
- For Wildseed Tech Inc., conducted user interview study for on people's self-improvement experience, and proposed user interaction features (https://apps.apple.com/us/app/codo-app/id1472955610).

UX researcher, University of Manitoba, Winnipeg, Canada | Sep 2017 – Aug 2018
- Initiated and conducted a project, 'Supporting Self-Directed Learning of Software Users' -- interview study for finding design opportunities, prototype development and formative user evaluation of a user reflection tool for graphic software learning, and creation of user flows.
- Led data analysis of a study, 'Community Enhancement of Software Tutorials: The role of interface design in eliciting comments.'

User researcher, Arizona State University, Tempe, AZ | Sep 2008 – Dec 2016
- Completed a project, 'A DIY Self-Experimentation Toolkit for Fostering User-Driven Behavior Change', funded by Google (PI: Eric B. Hekler, Winslow Burleson)
- Completed a project, 'From Self-Monitoring to Self-Experimentation: Behavior Change in Patients with MS', funded by California Institute for Telecommunications and Information Technology (PI: Emil Chiauzzi)
- Participated in a project, 'Dressing Support for People Living with Dementia', funded by the National Institute of Nursing Research of the National Institutes of Health (PI: Winslow Burleson)

- Participated in a project, 'Game as Life, Life as Game', funded by National Science Foundation (PI: Winslow Burleson)

Design faculty, Keimyung College, Daegu, Korea | Mar 1999 – Aug 2007
- Taught web design courses (Information architecture, UI design, web programming).
- Developed multimedia online courses on web design.

Design researcher, KAIST, Daejon, Korea | Nov 1997- Feb 1999
- Designed web interface of Republic of Korea Navy Headquarters intranet.
- Participated in Cultural Interface Design project, part of a Samsung-KAIST Future Technology Research project.

EDUCATION

Ph.D. Human Computer Interaction, Arizona State University, Tempe, AZ | 2016
Thesis: 'Supporting of Self-Experimentation of Behavior Change Strategies'

B.S. & M.S. Industrial Design, KAIST, Daejon, Korea | 1995 & 1997
M.S. thesis: 'Evaluation on multimedia interface design'
